

Conclusions NASE COURSE

Lomé, Togo, 2020

Most of participants enjoy the course and we collect some comments during the closing session

- Merci beaucoup pour les explications.
- Je tiens à remercier aux toutes les instructeurs pour les présentations très claires. Les expériences étaient également faciles à comprendre.
- Je me réjoui à participer à ce cours très intéressant pour les enseignants car la connaissance de l'univers doit être enseignée aux étudiants, de cette manière, c'est-à-dire avec des simples expériences.
- I would like to thank you once again for this great opportunity that you are giving us in TOGO, to discover more about the importance of astronomy in education through these rich practical workshops that you and your team are offering us. Yesterday i was so thrilled with the presentation of the instructor. The same for all participants. Thank him sincerely for us.

Finally the local organizer: By my voice and my own name, the entire NASE team in Togo would like to send you our sincere thanks for your precious help and your support in astronomy education, by giving us this great opportunity to discover the wonders of astronomy through your rich practical online workshop. We are very grateful and very proud. We take this opportunity to thank also all the members of the NASE teams for their tremendous and hard work. They wonderfully supervised us during this second session of the NASE online program in TOGO.
