What especially criticize?

- I have no criticism
- All topics covered were for the benefit of teachers. Accessible, creative and useful.
- In my opinion, it would be better for each participant to receive some materials in advance / theory /. To be prepared for some basic knowledge. The aim of the course is to demonstrate good teaching methods.
- I do not criticize anything.
- There is no such thing
- Nothing
- Nothing at all.

What you would value more?

- The organization of the course was excellent and the topics were useful and interesting.  
resting methods for teaching, good structure and plan for explanations, wonderful communication and good team building
- Working groups and workshops
- The workshops.
- I really liked Rosa's lectures.
- They were so interesting to me.
- Maybe workshops
- Everything
- That there was a peoples from different countries.
- Thank you very much for the interesting course!

Other observations (it is important to have them!)

- Thanks to the organizers and lecturers for the experience!
- Very useful, enrich us with new and diverse knowledge, ideas and methods of work
- Everything was great. I already apply it in my work. THANK YOU!
- individual lectures and activities should be shorter - for example up to 45 minutes
- I received many useful ideas. Thanks. This type of courses should be organized more often
- As a positive example in the online environment - the involvement of teachers in practical activities - tomake simple astronomy instruments and how to use them with students in the classroom and outside.
