a) Exchanges and contacts with other participants?

Very interesting	Interesting
33%	67%

b) What is your opinion about the usefulness of the course to their teaching?

Very useful	Useful
58%	42%

What especially criticize?

- Improve the images you used for the presentation
- None
- The time of the course was late
- I have not grand criticize but we can improve different paper and picture used in teaching
- Nothing at all
- Nothing
- No mastery of the French language.
- The first day of the training, we went a bit over time. I found it a bit long.

What you would value more?

- None
- Promote astronomy through scientific publications
- Planisphere making session
- Astronomy in my country
- The movement of the planets
- Workshops
- Face to face participation will be best
- The motivation of teachers to teach us
- I enjoyed everything, I enjoyed learning.

Other observations?

- A face-to-face meeting with all the participants where each of us could handle the different materials during the presentation
- I want a collaboration between epistemologists and astronomers
- It would be fine if you can organize an in person workshop in our country
- It will be very interesting to have a formation with you in the same place.
- More hands-on activities
- I would like to have another session for the presentation of the tools we made after the training.
