52%	48%

Very useful

Useful

What especially criticize?

- No
- Unclear calculations
- I'm not good in English
- I don't have anything to criticize.
- Should send the study materials to trainee before the class start because it makes the easy way for the trainees to pre-reading or prepares demo or testing materials for the class.
- I don't have any idea to criticize.
- Nothing.
- For my side, there is acceptable for all things.
- Especially criticize doesn't have
- This useful for Cambodian teacher
- Don't have
- No, but if face to face study is good.
- Nothing
- I don' criticize for any actions.
- I think the duration sometimes it was quite long.
- This workshop should be at the morning or afternoon

What you would value more?

- Want to have more workshops
- I am not so clear because of English but I am so happy to learn this, I want to get more knowledge about astronomy.
- Teaching methods, and practical activities
- Real observations by using Telescope.
- Yes, I would.
- This workshop is very important for me because this workshop can make me do the cartoons to teach my students in the class.
- Professor explained very clearly
- Very great opportunity for me
- Professors are very good with preparing the slide, technically teaching, sharing knowledge, and they are very friendly.
- I appreciate you that you spent time with us and you want us to understand more about It because you want us to shear what we have learn to our generation, people, and next generations. I have learned a lot from this course.

- Cambodian teachers have more teaching material for astronomy.
- Very good course
- If we have real activities is more useful.
- Good course
- If we have real activity, it is more useful
- I want to have more lecture. I require to the organization don't forget invite me to join for next programs.
- I am really appreciated their effort about tutorials.

Other observations?

- Experimental material is very good.
- Please provide more courses to Cambodia teachers.
- The course is very good for the teacher and those who are interested in astronomy
- I hope I can join this course again. Thank you very much!
- This course is important.
- I think we should have annual workshop and refer to face to face, so that we have a lot of activities and observation.
- Thank you for your interesting course.
- Pay attention to the participants.
- I think we should have annual workshops and refer face to face, so that we have a lot of Activity and glad together. Finally, I would like to say Thank You So Much all Professor for Spend Your Time to make workshop and Teach me.
- -To measure the distance of any objects in the sky. -Make more ways to measure parameters of the Sun and Moon.
- To me, all was good.
