

“21 Curso Internacional de Astronomía NASE-IAU”

La Paz, Bolivia, October 2012

Questionnaire

Discipline:

Astronomy	Mathematics	Physics
22%	22%	56%

Level:

Planetarium	Secondary	University
17%	58%	25%

First contact with astronomy?

Yes	No
56%	46%

If is not the first contact with astronomy

Planetarium	University
57%	43%

Reasons for assistance

Professional	Personal
57%	43%

Dates

Very good	Good	Bad
11%	56%	33%

Duration

Very good	Good
53%	47%

Organization

Very good	Good
69%	31%

Preferred activity

Workshops	All	Lectures	Working group
57%	14%	23%	6%

Activities do you like less:

Observation	Conferences	Working groups	Workshops	None
16%	32%	10%	16%	26%

Satisfied expectations in the subjects?

Very good	Good
75%	25%

Which activities should be dropped?

None
100%

Which ones should be added?

Telescope	Observations	Relations with the current context	Nothing
11%	22%	11%	56%

Level of activities

Satisfactory	Too high
89%	11%

Pedagogic Methodology

Very Good	Good
79%	21%

Documentation give

Very good	Good
44%	56%

Coordination between different activities:

Very good	Good
16%	84%

Astronomics visit session

Very good	Good
38%	62%

General opinion about the course:

a) Interaction and exchange

Very good	Good
79%	21%

b) Utility about the practice

Very useful	Useful
78%	22%

Critics:

The CD was not delivered at the course begins
Classrooms can not obscure
Local organization: lack of material, right place and time organization

What do you value most:

The didactic
The will, charisma, strategy and method of the foreign NASE instructors
I liked too much the studied materials that will serve in teaching
The willingness of foreign instructors despite the limitations

Other contributions of interest of the teachers:

Make this course continuously
Thank you very much for expanding my knowledge.
More prior advertising and more information for more people to benefit from the event..
