

“101 International NASE-IAU Astronomy Course”

Cluj, Rumania, October 2017

Questionnaire

Discipline:

Physics	Mathematics	Primary school
30%	22%	48%

Level:

<12	13-18
47%	53%

Is this your first contact with astronomy?

Yes	No
63%	37%

If no, what is your background in astronomy?

Courses	Autodidact
60%	40%

What was the cause for participating in this course?

Professionals	Personals
20%	80%

What do you think of the choice of dates?

Very well	Well
63%	37%

What about duration?

Very well	Well
75%	25%

What do you think of the organization of the day (and night) in four different types of activities: conferences, working groups, workshops, observations?

Very well	Well
80%	20%

What kind of activities have preferred?

Lectures	Workshops	Observations	Working groups
17%	43%	30%	10%

What kind of activities you like least?

None
100%

The subjects, have met your expectations?

Very well	Well
65%	35%

What would you delete?

None
100%

What would you add?

More observations	Nothing
12%	88%

The level of activities has been:

Satisfactory	Too low	Too high
73%	15%	12%

What is your opinion about the teaching methods of teachers?

Very well	Well
80%	20%

What is your opinion about the CD that you received?

Very well
100%

What is your opinion about coordination between different activities?

Very well	Well
63%	37%

What is your opinion about the visit session astronomical?

Very well
100%

What is your overall opinion of the course related to:

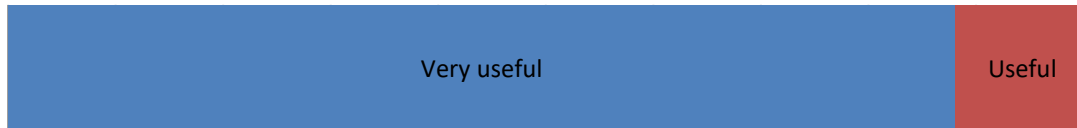

a) Exchanges and contacts with other participants?

Very interesting	Interesting
60%	40%

b) What is your opinion about the usefulness of the course to their teaching?

Very useful	Useful
88%	12%

What especially criticize?

- None

What you would value more?

- Astronomical observation and orientation via outdoor activities
- I'm looking forward for experiencing the activities with the Moon with my pupils.
- Certainly I will use the models in order to help my pupils to better understand the coordinates.
- It was interesting to learn together with math and physics teachers, they are humans....
- It was interesting to use low cost materials in order to do science.
- We didn't imagine that we will understand so many things about our solar system, moon phases.

Other observations (it is important to have them!)

- I only knew the horoscope from tv so, now I will look in a different way.
