Interesting	Nothing Interesting
89%	11%

b) What is your opinion about the usefulness of the course to their teaching?

Very useful	Useful
67%	33%

What especially criticize?

- Conducting the course with google meet.
- The low number of activities for primary school.
- More hands-on work could have been done.
- More information could have been given in the lessons.
- I do not find something to criticize, all workshops were very helpfull.
- The fact that the course date is on Summer Vacation will cause us a lot of trouble.
- I had trouble communicating
- I would like to be prepared in advance. I did not do enough research
- It was a great education.
- It would be even better if it was possible face to face. Thanks

What would you value more?

- Materials and documents
- What you would value more?
- Scientific knowledge, team work
- I value interactive information more
- The materials we used at workshop 2 was very fantastic. I am so excited and I am going to use it tomorrow at class.
- Improve myself and pass them on to my students
- The energy of our teachers in the course was very good.
- Learn by doing
- It was an excellent training. The apps were particularly good. Thanks for the examples

Other observations?

- Overall it was a good tutorial
- It would be great if we could do hands-on observation.
- It would be much easier on face to face but unfortunately we did not have the chance. Maybe we meet and do the experiments some day.
- Speeches should be made at shorter intervals and there should be frequent translations.
- It was fun and the timing was good. I am very happy to have participated. I want to be in contact with you for a long time.
- Thank you
