What especially criticize?

- Nothing
- Lack of practice
- It was too short. The first course was very good.
- I don't criticize anything, I'm glad for being able to participate in this course, I have learnt very much.
- Everything is OK

What you would value more?

- More practical exercises
- Received materials
- More courses of this kind
- Maybe more information about galaxies, black hole, stars.
- It was perfect the way it was
- The second course was very professional, thanks to Mrs. Pethő.
- I would appreciate to have more workshops, that are fascinating and interesting.

Other observations (it is important to have them!)

- Nothing-
- I think the activities would be more interesting face to face, especially workshops and working groups, but unfortunately this isn't possible right now.
- Organize several similar courses
