

Conclusions NASE Course Astrobiology Turkey

In the closing session, after the course, it was open the discussion. Some ideas and some comments from the participants were:

Throughout the entire course, the lecture included detailed explanations of how theory could be turned into practice. Thank you so much.

Thank you very much.

The activities were very good. I can't wait to implement most of them in the classroom. Many thanks to all our teachers who contributed.

It was a nice and useful astronomy education. It was an eye-opening education for me. Thanks
