

“261 International NASE-IAU Astronomy Course”

Shahre Rey, Iran, December, 2021

Questionnaire

Discipline:

Maths	Physics	Biology	Chemistry	Nat. Sciences	Astronomy	Other
10%	15%	9%	14%	14%	26%	12%

Level:

12 to 18	Over 18
46%	54%

Is this school your first contact with astronomy?

Yes	No
31%	69%

If no, what is your background in astronomy?

Self-taught	Courses	Amateurs
44%	25%	31%

What was the cause for participating in this course?

Professionals	Personnel
38%	62%

What do you think of the choice of dates?

Very well	Well
46%	54%

What about duration?

Very well	Well	Short	Length
46%	39%	8%	7%

What do you think of the organization of the day (and night) in four different types of activities: conferences, working groups, workshops, observations?

Very well	Well
31%	69%

What kind of activities have preferred?

All	Lectures	Workshops
62%	15%	23%

What kind of activities you like less?

None	Lectures	Observations
70%	23%	7%

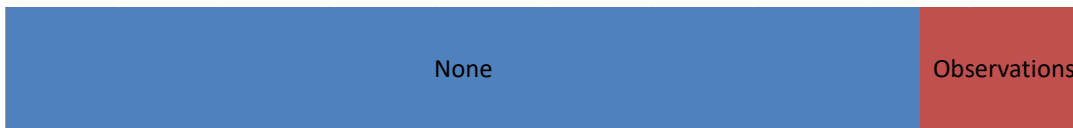

The subjects, have met your expectations?

Very well	Well
54%	46%

What would you delete?

None	Observations
85%	15%

What would you add?

More Workshops	Working Groups	More Observations	None
48%	17%	23%	12%

The level of activities has been:

Satisfactory	Too High
69%	31%

What is your opinion about the teaching methods of teachers?

Very well	Well
69%	31%

What is your opinion about NASE web?

Very well	Well
62%	38%

What is your opinion about coordination between different activities?

Very well	Well
46%	54%

What is your overall opinion of the course related to:

a) Exchanges and contacts with other participants?

Very interesting	Interesting
39%	61%

b) What is your opinion about the usefulness of the course to their teaching?

Very useful	Useful
62%	38%

What especially criticize?

- Nothing
- This course is interesting
- In the first step, we thank NASE for these international courses and workshops; in the second step, it is much better if such courses are held by scholars and participants at a higher cost. Also, it is more useful if the courses get out of this tightness in holding and are held for more time and days. We hope that more efforts will be made by NASE in holding such workshops in person
- Lengthy lectures and workshops in a short period of (two days) time was to some degree tiring.
- Please save time in online training. Because astronomy is interesting and difficult, our brain cannot learn it for 5 hours and loses interest.
- Time management
- I criticize you for teaching us about planets and galaxies and everything in the sky
- Everything was great, professors and content.

What you would value more?

- Working group
- The whole course was good overall, but we would be grateful if NASE could hold such courses for all the sciences related to aerospace, such as astronomy, astrophysics, cosmology, asteroids, and the like.
- Some parts of astronomy are a bit dry in nature so it would be the teachers' talent to teach those kind of subjects in a more exciting and energetic way to make them look more interesting and easier to grasp.
- Workshops and handworks
- Workshops
- Learn galaxies.
- Working group and workshop
- The information I gained during this period was useful and valuable
- Topics and observations.

Other observations (it is important to have them!)

- If on is internet of the everything is good
- Keep up the good content; just take more courses in Iran and visit the Iranian Astronomical and Astronomical Centers
- Your program was interesting. The teachers taught excellently. Please do not force us to open the camera while teaching online. Thanks.
- Return the explanations that were PowerPoint and slide to Persian. Thanks
