

Conclusions of NASE Course of Astrophysics

Iran, Fars, January 18th and 19th 2021

In the closing session, participants expressed their opinions that can be considered a summary of the course:

- Greetings to NASE instructors other professors and loved ones. Congratulations from the good and capable professors of Iran. Do not be tired and thank you for holding fruitful science courses.
- This course had some excellent lessons and very good topics which can be useful for participants' fields, specially in physics.
- Most of participants was very happy because it was an opportunity to them to meet international professors and speak with them.
- The topic of course is very attractive. This is not what we can find in our schools and it's very important.
