- None
- Nothing
- Length of the sessions
- Avoir le support des formations

What you would value more?

- Everything
- In general it was good
- Anything
- Atelier à Lomé

Other observations (it is important to have them!)

- As it is an online activities, for other course we will like to have more video's presentations for the practical activities with a long duration. Because the participants need to know to make themselves these kind of activities in classroom or other place. The video's activities is too short. It would be also good if the presenters can show the hand-on activities by doing themself directly. That will be very interesting.
- More have short presentation and practices
- Envoyer les documents de formation
- No particular comments but concerning the duration of the online workshops, the method used is good but I also suggest that it be one workshop per day by giving more time to the discussion after the workshop. Thank you.
