Very well	Well
63%	36%

What about duration?

Very well	Well
46%	54%

What do you think of the organization of the day (and night) in four different types of activities: conferences, working groups, workshops, observations?

Very well	Well	Poor
46%	46%	8%

What kind of activities have preferred?

Workshops	All	Working groups
55%	37%	8%

What kind of activities you like least?

None	Observations
91%	9%

The subjects, have met your expectations?

Very well	Well
64%	36%

What would you delete?

None
100%

What would you add?

None	More experiments
73%	23%

The level of activities has been:

Satisfactory
100%

Satisfactory

What is your opinion about the teaching methods of teachers?

Very well	Well
82%	18%

Very well

Well

What is your opinion about NASE web?

Very well	Well
64%	36%

Very well

Well

What is your opinion about coordination between different activities?

Very well	Well
73%	27%

Very well

Well

What is your overall opinion of the course related to:

a) Exchanges and contacts with other participants?

Very interesting	Interesting
55%	45%

b) What is your opinion about the usefulness of the course to their teaching?

Very useful	Useful
73%	27%

What especially criticize?

- Nothing
- Few professional concepts
- The lessons were slightly delayed due to the translation from English.
- Internet speed
- It is not always possible to download a presentation for a lesson. We would like all presentations to be available to participants. They are very informative.
- I think it is possible to add lectures on astrobiology

What you would value more?

- Genius experiments
- Practice
- Workshops
- I learned a lot
- Everything is great! Thoughtful, clear, logical!
- Spectroscope
- Presentations, lectures. I want to know more about stars and outer space from professionals and scientists. I fulfill my childhood dream.
- Topics astrobiology and exoplanets. Very interesting practical part and summarization in tables.
- Things are good
- Everything is very interesting
- I really liked modeling of environments / conditions: UV ... Thanks a lot!

Other observations (it is important to have them!)

- Great presentations and experiments
- In connection with the lessons, it is impossible to immerse yourself and fully master the material. Need a repeat. If possible, 2 hours on a day off, instead of working.
- I use the knowledge gained in the lessons
- Many thanks for the courses!
- I want to understand, I want to combine this knowledge into a general picture of the world.

- Great course! I will definitely conduct classes with schoolchildren using the knowledge that I received in these courses. A lot can be used in physics lessons. Thanks!
- There's no such thing
- Everything is awesome. I never thought that such wonderful experiments could be easily performed. It was really useful and interesting
