

Conclusions ASTRONOMY COURSE

IRAN, SISTAN AND BALOUCHESTAN, 2021

At the end of the course and closing session participants expressed their suggestions. Here are several examples:

- Thank you and NASE for this perfect course, so I am a physics teacher and I am interested in forming an astronomy association in KERMANSHAH. What should I do Mr. Baghbani? Then Mr. Baghbani guided her.
- I am a student at the University of Tehran. Mr. Baghbani, please tell me how to establish a student astronomy association? then Mr. Baghbani guided her.
- Thank you and we hope that these courses will continue.
- Thank you good teachers for this course.
- I'm very happy to meet your team through the NASE course
- The workshop was very useful because we made the tools and we used them, then we realized the importance of tools.
- Come to KHAMIR port and hold an observation night for us because we do not have the necessary tools like a telescope. So Mr. Baghbani promised her that the ITAU team would soon hold an observation night for students and teachers in their city.
- I am interested in teaching my students the tools I learned in the NASE workshop.
- Thank you for holding this course and we are happy to host a NASE workshop in FARS province next week.
- I gained an understanding of the sky and learned useful things.
- This is my second time participating in NASE and it helps me learn better.

- I am glad that I benefited from the course and thank you professors.
- In these days of quarantine and the corona virus, we got energy from your course and we thank you and NASE.
- We look forward to participating in your future courses.
