## Other observations (it is important to have them!)

I could have very useful and good workshops activities during these days  
Thank you very much for your direction to many works with interesting methods. I hope to continue learning and share what I learned with the Local Working Group of teachers and planetarium  
I value discuss teachers and participants  
NASE in JAPAN part 2 PLEASE!!!!  
Some activities did not turn on it well yet. I commented the organizers for successfully exciting the while workshops with limited amount of time. Congratulations.

Thank you for organizing. The point I love was that throughout the course, we had the view from where we are. I think it helps children to understand the workshops more easily
