

Conclusions

Busher, Iran, 2020, Astrophysics

In general, the course was a success. In the closing session, several participants give their opinions about the course.

- I am physics teacher. This course was very useful for me and all of experiments are useful
- In this course there were many applications. I can use them for my teaching
- The workshop was interesting and plentiful. We can teach scientific concepts by use NASE experiments. NASE teach us, how we can use simple and cheap material to promote science between students
- Grateful because this course was valuable. Please continue with this kind of courses.
- We are teacher and we need to learn new way for teaching in school. This is the time to change something in our school.
- The course was very very useful and active. I like it. I hope this course continues.
- Just sometimes my internet disconnected.
- Thank you about creating this kind of training
- Thanks dear Rosa and Corina
