What especially criticize?

- Nada. El taller de Astrobiología estuvo sumamente interesante.
- Se aplica en los temas de Física.
- No
- las diapositivas no son amigables para las personas que no son del área
- Las fechas y los canales utilizados para comunicación no ayudaron a que hubiera mas participantes de las universidades.
- nada

What you would value more?

- Que sigan promoviendo estos proyectos, para llegar a más personas a través de la virtualidad.
- Talleres son muy didácticos.
- Las experiencia adquirida
- Las actividades
- La colaboración entre todos.
- Todo, ya que las conferencias se complementan con talleres. Se promueve el aprendizaje colaborativo. Es una experiencia enriquecedora en su totalidad.
- Valoro mucho el apoyo que se nos dio en cuanto al uso de zoom.

Other observations (it is important to have them!)

- Horarios para impartir los talleres deben tener en cuenta que ya los educadores empiezan clases virtuales en jornadas diferentes.
- Debe programarse más curso virtual con profesores extranjeros y nacionales
- Excelente trabajo. Gracias.
- Los intercambios con otros participantes, si se refiere a la participación en ser los facilitadores de las exposiciones, si ha sido interesante. Siento que no hay mayor comunicación entre nosotros mas que lo estrictamente necesario, como son los avisos y notificaciones. Sin embargo aprecio que cuando me correspondió ser facilitadora me comunique para pedir opinión y también tuve muy buena comunicación con la profesora que estaba encargada de las preguntas y el Kahoot.
