What especially criticize?

- Too short
- Korean versions needed
- None
- Nothing
- No
- There is nothing special, but I would like to say that the result is solid. For example, a star demonstrator and an angle measuring ruler.

What you would value more?

- Nothing
- Simple and variety activities
- Activities
- Horizontal Coordinate System Model
- Thank you so much
- The process of transforming astronomical knowledge in real life into astronomical education through inquiry activities is impressive. I am also very interested in a process like this. And I could feel the invisible efforts and passion of Chairman Rosa.
- The observation and activity-oriented learning was impressive.
- Making model of solar eclipse like umbra and penumbra on the earth surface.

Other observations (it is important to have them!)

- Very interesting workshop!!
- No
- I'm not sure what this problem 'Other observations' means. Well... I'm interested in Well... I'm interested in exploratory activities in the field of cosmology, stellar evolution and galaxies.
