

Conclusions ASTRONOMY COURSE

IRAN, BOUSHEHR, 2021

At the end of the course and closing session participants expressed their suggestions. Here are several examples:

- The course was excellent and the instructors were fluent.
- Increase the practical parts because we learn better when we make tools ourselves.
- Thank you and we are waiting for new courses.
- This course was great but the time of each workshop is long
- I am a teacher and I have participated in most of NASE courses and I have learned new and useful things every time. Thank you for your team and good training.
- I am very happy to meet your hard-working team and I get excited when I see you working together as a family and trying to train teachers. I wish you all the best.
- Thank you very much for holding such good and excellent courses in Iran. Good luck.
