

Conclusions ASTRONOMY COURSE

IRAN, TEHRAN, 2021

At the end of the course and closing session participants expressed their suggestions. Here are several examples:

- I'm from Afghanistan and educating in Iran. I enjoyed NASE course, so when I come back to my country, I start to teach this tools to students, so they are really useful to everyone.
- My mother tongue is Turkish, so I can help you to translate NASE book to Turkish. In addition to, I know Uzbek language, and I can help for translating the NASE book.
- I and my sister are Iraqi, our language is Arabic, so we can help to translating NASE book to Arabic.
- The topic of courses is very attractive and useful. Actually I teach them to my students. Thank you!
- I'm really enthusiastic about astronomy, so me with my classmate, create an astronomy club for student in TEHRAN University.
- All of this tools are necessary to everyone. Please increase tools.
