

Conclusions ASTRO-BIOLOGY COURSE

IRAN, LORESTAN, 2021

At the end of the course and closing session, participants expressed their comments, opinions and suggestions. Here are several examples:

- Simple experiment with deep output, it is very amazing.
- Fantastic night, I see for first time surface of Moon.
- Thanks a lot for attention to different province and give a chance to students for knowing sky in best way.
- My opinion about live in other planet completely changed and I learnt a lot thing about them.
- Two days with interesting topic, it was so useful for me.
- If I want to say a word about course that is teamwork. You were like a brother and sister.
- Live observation was very cute and I enjoyed it a lot.
- I will attend in next course certainly.
- All instructors put hole their power on class and it give me a good sense.
