### What especially criticize?

- No
- Nothing
- The procedure of the activity could have been shared as pdf in mail
- Quite lengthy sessions
- During workshop you should appoint a person for camera coordination and light proper. Activity performer should do activity step by step with proper explanation.
- There was bit less of actual Astrobiology in the course and more relating to Astrophysics.
- Astrobiology should be taken up separately and not mixed with Astrophysics. Simple workshops related to Astrobiology should be included.
- Ok, thanks
- None
- Good
- When the presenter is doing some activity in the workshop, there must be someone to hold the camera properly. Preparation is necessary good presentation.
- Some activities in workshop not clearly visible
- Nothing to criticize
- Sometime due to network issue I couldn't see activities and fill day one feedback form
- Language problem, accent is different
- No criticism about this course.
- Need to give more time for activities
- Foreign resource persons language is hard to understand

### What would you value more?

- Lectures
- Topic is good
- If we could add more about biology part in the Astrobiology course for the people interested it would be better
- Workshops with basic explanation and concepts.
- 99 percentage
- Presentation
- Experiments
- Workshops and Observations
- In terms of language: Good
- Astronomy subject
- Time and logical sequence in presentation.
