- I have nothing to criticize
- More experimental tools and methods are lacking to educate students.
- In terms of organization, there were problems due to the time difference.
- No criticism

What would you value more?

- By attending this training, I realized that it would be effective to teach the practical lessons in an interesting way and with the available materials.
- The training was good. Because I participated with my professional teacher, it was possible and understandable to do it together.
- Prepare lessons using video
- Workshops
- Theory and methodology of training
- I really like the approach of the teachers.
- Time always gives me the opportunity to learn
- I found it very interesting to develop materials using the materials available to teach astronomy.
- Observation results

Other observations

- La barrera del idioma era relativamente pequeña debido a la comprensión astronómica. Sin embargo, me di cuenta de que necesitaba mejorar mi inglés y aprender a hablar inglés con mi profesor
- Participar en futuras capacitaciones. Gracias. Deseo lo mejor a NASE.
