a) What is your opinion about the usefulness of the course to their teaching?

Very useful	Useful
76%	24%

What especially criticize?

- Nothing
- Hold more courses
- None
- Asking and answer
- We had short breaks between our activities.
- It was really interesting that the teachers used some simple and important experiment during they teaching that helps the students to understand better and besides that I was very happy to met some great teachers from other countries which was really fun and interesting, all in all thanks a lot to gives the opportunity to participate in these courses
- Im not criticize
- No
- The course was excellent, I have no criticism
- Good
- I think that the time of the course was very long.
- None
- It is very good
- The master of first course couldn't explain very well. And some of the masters has same mistakes.
- Reduce class time

What would you value more?

- Learning everything of astronomy
- I'd value the fact that they tried to make the lessons useful and practical for us.
- The introduction with the teachers

مجازی بودن دوره چون همه از همه جا میتونن شرکت کنند

- Worke shope very good
- Spend a lot of time teaching and collaborating with professors
- Online observation of the sun
- I think that the best part of the course was watch sun live.
- Lectures
- Workshops
- Professors and teachers
- The phenomenon of sunrise and sunset every day. Because every day creates a new narrative and story for us and we even understand the narration of the past of Rome.
- Well
- Workshops
- New articles in the world about astronomy and discussion about them
- Familiarity with foreign professors

Other observations?

- If we had more time to deepen what we learned or we got more chance to ask our questions from the professors individually, it would have been way better
- Everything was great
- Observation of the moon and stars
- More teachers and students
- Very good
- Thank you for every thing
