

## Conclusion of NASE COURSE INDONESIA, 2021

In the closing session, after the course, participants expressed their suggestions. There are several comments:

- Hopefully workshop activities will be added in duration and with new materials.
- In my opinion, guided practice activities and equipment preparation from the beginning are very necessary. thank you.
- I want this course in direct learning face to face not via zoom, thanks.
- Increased knowledge.
- Many simple tools that can be prototyped
- Presentation of workshop by UAD team help us to understand more
- Techniques for studying astronomy
- NASE website is very helpful
