All	Workshops	Lectures	Observations	Working Groups
50%	18%	22%	5%	5%

What kind of activities you like less?

None	Lectures	Observations
67%	11%	22%

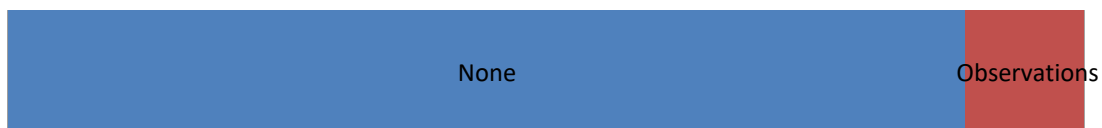

The subjects, have met your expectations?

Very well	Well
44%	56%

What would you delete?

None	Observations
89%	11%

What would you add?

None	More Workshops	Observations	More Working Groups	More lectures
50%	11%	28%	17%	4%

The level of activities has been:

Satisfactory	Too Low	Too high
72%	22%	6%

What is your opinion about the teaching methods of teachers?

Very well	Well
61%	39%

What is your opinion about NASE web?

Very well	Well
50%	50%

What is your opinion about coordination between different activities?

Very well	Well
44%	56%

What is your overall opinion of the course related to:

a) Exchanges and contacts with other participants?

Very interesting	Interesting	Nothing interesting
11%	78%	11%

b) What is your opinion about the usefulness of the course to their teaching?

Very useful	Useful
56%	44%

Very useful

Useful

What especially criticize?

- No
- Our knowledge
- I completely liked the course
- All was good
- None
- Nothing
- Very well
- I completely liked the course
- The master class "Astronomy beyond the Visible" was held too quietly. And also, I would like to review these lectures and master classes again so that the material is remembered and it could be used in practical activities in the classroom.

What you would value more?

- Useful information
- Interesting to learn more about astronomical observations and modern telescopes
- Everything was wonderful!
- Thanks for the courses
- Perfect days, perfect time to study.
- Everything is great
- There were a lot of examples of different activities and projects for making them with children.
- Lectures, practical exercises
- Brevity of lectures
- All
- Thank you for the courses, everything was useful and entertaining.
- Everything was great! Thanks for the courses
- Master classes were very interesting
- Useful information
- Everything is great

Other observations (it is important to have them!)

- I would add practice with observations of how to determine what parameters in the sky.
- And broke the course for beginners and professionals.
- Yes
