What especially criticize?

- Mejor en idioma nativo
- Some classes are very time-consuming, it is difficult to perceive information. The translation of the lecturers not always complete
- My level of English. Unfortunately I'm not good in English for I would study without translate.
- None
- Coordinated work of the lecturer and translator. It seems to me that it is necessary to coordinate the translation and further split the lecture for a quality translation

What you would value more?

- Practical exercises (I want to explain astronomy from elementary school)
- I would like to note that theory is always combined and supported by practice
- Content is super! I would yet know about computer program and app for astro.
- Theory of Astronomy. Observations
- In general, everything was at a good level

Other observations

- I would buy methodological manuals with such practical works
- Is it possible to add information about constellations: the history of the name, how to determine in the starry sky
- Thank you for wonderful course!
- In Like that course and want to participate more
