

Conclusions of NASE Course of Astrobiology

Iran, Fars, Febraury 1st and 2nd 2022

After the course an during the final session several comments was introduced, we present here some of them:

- The topic of course is very attractive.
- The content of course is very useful and practical.
- This course had some excellent lessons and very good topics which can be useful for participants' fields, specially in physics.
- The topic of course is very attractive. This is not what we can find in our schools and it's very important.
- This course is a pleasure for ME
- This is soooo interesstingg!!!!
