What especially criticize?

- None
- Time is so long
- the activation of the microphone by everyone during the workshop is unpleasant
- La méthode
- The course was interesting but they was said that at the end of the course of formation they will give Attestation for the formation. But we didn't get it.
- Nothing
- Any problem
- Participants on Zoom reactivate their microphones and video themselves...it sometimes disrupts the course
- Il y a eu des coupures de la connexion sur zoom un certain moment
- nothing to those who form us but it is rather in the conditions in which we are....
- No
- I want to know Fundamental tools, to use and resolve the problems .
- No more
- Rien
- The absence of a stable division channel for video conferencing.
- It is well

What you would value more?

- None
- Work in group
- Mute everyone and allow the host only to activate them
- I appreciated more the practical form of the workshops.
- La discipline
- The teachers do their best to give us the course. I love them
- Anything
- The study on astrophysics has me much more and it is really interesting
- That organizers secure more access to microphones and video on Zoom
- J'ai apprécié le respect du temps, et la manière dont le courant a été diffusé
- that the workshops be done face-to-face so that we can see reality in the face
- that NASE tries to expand in Africa through cooperation with our universities
- Observations
- Useful of their teaching
- I would like the lessons not to be too long, if possible schedule a maximum of 2 activities per lesson to allow students to follow the explanations well and to assimilate the course well. Thank you!
- Rien
- First of all, I appreciate the initiative to offer such very interesting training free of charge. Moreover the availability of highly experienced teachers.
- It is observations

- Can be multiple but I will appreciate if the training duration is short.

#### Other observations?

- Otherwise, the formation is very good and the workshop is explain well Thank you
- Congratulations to NASE for giving this course to make everyone knowing sometime about Astronomy.
- It's about the Zoom connection.
- Anything
- Personally, I would like other stories to be made in this direction each month
- That we organize more workshops, real observations on the ground
- J'ai remarqué que les gens s'intéressent vraiment à l'astronomie, particulièrement moi j'ai vraiment aimé. Je suggère qu'on puisse aller encore plus loin
- Nothing more except that I want to thank the members of NASE and the outside trainers. Thanks
- Good work
- Faire Formation en présentiel
- Physical astronomic
- This is very good project
- Très bon. Happiness
