

Conclusions of NASE Course of Astrobiology

Bucharest, Romania 2022

- These are some of the impressions after the Bucharest course:
- All my respect because you share your experience
- A very special effort
- Thank you for all the information you gave us
- We will try to do some of the experiments presented by you
- I loved the instructors' passion and willingness to share with others. Thanks!
- It was an honor to have this course!
- Congratulations for the incredible work of NASE, for the practical activities, for the high quality of scientific information, for the extraordinary dedication to put in context the importance of studying science for young generations towards a brighter future and for a healthy Earth.
- Thank you and we look forward to more courses like this one.
- Congratulations for all the activity! Good luck!
- Thanks to NASE for making us good and better teachers
- Congratulations for the NASE site and the teaching materials provided.
- Full of good ideas! Continue adding other courses with us
- NASE is inspiration and model. It offers the possibility for students to approach astronomy in a fun and less expensive way
- Thank you for accessing the NASE materials.
