What you would value more?

- The practical activities in which we were involved
- The demonstrations of how to work with our students
- Practical activities open windows for studying science
- The level of presentations and activities
- Our colleagues worked very well and they were very implicated
- I liked all activities
- The way that activities were presented and the practice
- I like workshops

Other observations (it is important to have them!)

- The period of this course is not well chosen, it is a busy period at our school. Any way, it was very interesting. Thank you.
- Practical activities that we can use with our students
- We thank you for all you have done for us and we are exciting to work with our students and teach them what we have learned
- I want to use the materials from NASE website in some activities organised with my pupils in World Space Week.
- You have to continue!
- It must to have the book of the course (on paper) while the workshops time.
- I will use the models of the Solar System
- I will use the demonstrators in my classroom
- This course was very interesting because I can use to classes for my students.
- All the workshops were so intuitive and explain in a easy way very difficult things
